

## About Drain Doctor

### At Home

Drain Doctor is the largest residential full service plumbing and drainage company in the U.K.

Whenever, wherever, or whatever your plumbing or drainage needs may be, Drain Doctor are ready to give you swift and professional service.

We pride ourselves in being able to solve your plumbing or drainage problems quickly, efficiently, and with the service attitude that will make you glad you called us.

Why should Drain Doctor be your first choice?

- \* You can call out our service technicians 24 hours a day 7 days a week
- \* Your telephone call will be answered by a human being, never an answerphone
- \* You will pay no extra charges for service visits outside normal working hours
- \* We will keep in constant touch with you until the job is done
- \* You will never have to pay a call-out charge
- \* You see and agree the price before work is started
- \* Your technician will be courteous, highly competent, and in uniform
- \* The Drain Doctor vans carry stock to complete most jobs then and there
- \* All work areas will be left clean and tidy
- \* We specialise in planned maintenance work

### At Work

Because our Drain Doctor Plumbing service combines expertise in both Plumbing and Drainage, our commercial accounts realise that, they only have to make one call for all their needs.

Often drainage problems can be allied to plumbing problems, so it is always good to have double expertise on hand.

Our clients also need a service company who will be on call and will come out when they need them. Not when they can fit you in! Business can be lost through delay. We pride ourselves in giving a fast local service and working to your time table.

You will always get a immediate response from a member of our Customer Service team, at what ever time you call, all year round.

### When you call us

Your problem will be solved quickly and professionally
