

Home Buyer Inspections

Drain Doctor Plumbing and Drainage Home Drainage Inspection reassures you that you shouldn't be surprised by any major repairs or emergency blockages. Obviously no 100% Guarantee can be given as it is only a report based on recorded evidence at the time it was carried out.

Our CCTV surveys provide you with a Survey report, conclusions recommendations and a quotation for any remedial work found necessary.

The visual recording that is sent to you can be in either video or DVD form; your choice.

Areas to be looked at.

- Visual condition of Gullies chamber frame and cover
- Chamber walls, and within the chamber
- The lateral slippers and channel on invert.

The CCTV recording of the drain run through to either the interceptor or to the main sewer if possible. Should there be a hidden chamber, there would be on additional charge to locate it.

Look at our CCTV SURVEY for additional information.
