#### PROZONE

### Air Regeneration System

Prozone cleans and rejuvenates the air we breath, refreshing the atmosphere and bringing outdoor freshness indoors. Prozone recreates the natural process of ozone production by the action of high energy discharges in lightening on oxygen in the atmosphere. The ozone produced destroys harmful micro-organisms and breaks down malodour causing compounds, thereby neutralising the unpleasant smells that they produce. The process leaves no chemical residue and penetrates to even the most inaccessible locations.
